Classroom Assistant	*Oct 2023 – Dec 2023*

- Balanced development tasks with mentoring responsibilities, enhancing communication and problem-solving skills in a real-world learning environment.

PROJECT EXPERIENCE

JP Morgan & Chase & Co	**mumbai ,india**
Kafka & Spring Boot Integration:	*May 2025 – Jun 2025*

- Developed a Kafka-based real-time transaction validation system using Spring Boot, handling secure user balance updates and database persistence with H2.
- Designed and consumed RESTful APIs in Spring Boot projects to handle data exchange between services and client-side apps efficiently.

PRODIGY INFO TECH	
CHAT-BOT	*Sep 2024 – Oct 2024*

- Developed a responsive chatbot using NLP libraries to handle user queries and automate support tasks within web applications.
- Developed a responsive chatbot using NLP libraries to handle user queries and automate support tasks within web applications.

Secure authentication system using MERN Stack	*Sep 2024 – Oct 2025*

- Implemented a secure login and registration system using JWT in MERN stack to protect routes and manage user sessions efficiently.
- Developed role-based access and protected routes using middleware in Express.js, ensuring secure resource authorization.

Custom E-Commerce Site	*Nov 2024 – Feb 2025*

- Built a responsive e-commerce website using React, implementing product listings, cart functionality, and dynamic routing.
- Utilized React components and hooks to manage state and build reusable UI features such as product cards and filters.

- Applied JavaScript fundamentals to handle cart operations, user interactions, and basic validations without relying on backend logic.

OTHER PROJECTS

| CO-CRIUCLAR ACTIVITES | : | AI-Powered Fintech Innovation for Union Bank of India's Vyom App Tech Stack:AI, OpenCV, React.js, Node.js, Firebase, OpenAI API Integrated AI-powered facial recognition for secure transactions. Developed a smart AI appointment management system for customers. Built a voice & chatbot-based for banks |

- :• Drone-Based AI Surveillance for Crane Lift Zones
- desgin an site which can help in monitoring ,the drones and giving live feed
  tech stack :**React.js,**<u>Socket.IO</u> ,Tailwind CSS,WebRTC ,Python,node.js

CUSTOM SECTION

certifactes

- **Software Engineering Virtual Experience** – JPMorgan Chase & Co. (Forage) *Simulated real-world tasks including Kafka integration, incentive API design, and RESTful microservices.*
- **Front-End Web Development** – Prodigy Infotech *Completed practical frontend projects including chat apps, e-commerce UI, and secure login flows.*
- **Full Stack Development Internship** – Neptune SuperTech *Created HTML/CSS-based mini-projects; learned client-server flow and deployment basics.*
- **Introduction to Web Development** – Udemy *Covered HTML, CSS, JavaScript, and basic responsive design techniques.*
